

**Condemnation Statement on the Israeli Parliament's Approval of the Jewish
Nation-State Law**

We condemn in the strongest terms the decision of the Israeli Parliament to pass the Jewish Nation-State Law, which contradicts with international principles of law. The decision reduces the status of Arab citizens to that of a secondary citizenship. It overlooks the real owners of this holy land and their historically appertaining right and existence on it.

As the Senate of Kilis 7 Aralık University we invite international community to unite and stand against this unilateral, unjust and unlawful decision aiming to justify the invasion of Palestinian land by and unlawful practices of Israel.

Respectfully announced to the public.

KİYÜ Senate
